

INTERNATIONAL COMPANY AGRO-SCIENCE

TECHNICAL DATA SHEET

ACTION PLUS Z

COMPOSITION	
Total nitrogen (N)	13%
Nitric nitrogen (N)	1%
Ureic nitrogen (N)	12%
Water soluble potassium oxide (K ₂ O)	3%

**LIQUID INORGANIC COMPOUND FERTILIZER
BASED ON MACROELEMENTS
NK 13-3
in solution**

PHYSICAL PROPERTIES

Formulation	Liquid	Visual examination
Colour	Dark brown	Visual examination
Density	1.2

TECHNICAL DATA SHEET

ACTION PLUS Z

Benefits:

the product promotes flowering and cell multiplication after fertilization. It also accelerates the metabolic processes of the plant, favoring the increase in quantity and quality of productions. Applied after transplanting it acts as an anti-stress, improving the engraftment of young seedlings.

DOSAGES

FOLIAR TREATMENTS	DOSAGES
Fruit trees	150-350 g/100 lt of water
Vegetables	150-200 g/100 lt of water
Greenhouse crops	150-200 g/100 lt of water

FERTIGATION	DOSAGES
Fruit trees	5-10 Kg/Ha
Vegetables	3-10 Kg/Ha
Greenhouse crops	3-10 Kg/ Ha

Apply the product in a single application or by dividing the crop cycle, depending on the vegetative state.
